

Peplink MediaFast

Lightning Fast Content Delivery. And So Much More.

MAX HD2/HD4
with MediaFast

Works with:

iTunes U

iTunes

TED.com

and more...

MediaFast 500

MediaFast is our supercharged content caching and all-in-one mobile device management solution. Designed with education and entertainment in mind, it downloads and buffers video, audio, iTunes/iTunes U, HTTP, and other content for uninterrupted learning and fun anytime.

Prefetch. Off-Peak Downloads. Anytime, Anywhere Playback.

Schedule one-time or recurring content downloads during off-peak hours, and then playback downloaded content anytime. Need HD video and other content in places with spotty or congested Internet connections? Download whenever and wherever the connection is best. Then pack up and take the MediaFast anywhere you need seamless content delivery.

Reporting. Insight. On-Demand.

Check bandwidth usage and savings. Track popular URLs and file types. You can also monitor client IP addresses, find your heaviest users, and more, all from a single intuitive interface.

MDM. Complete iOS Device Control. All in One Place.*

Provision and manage iOS devices without additional gear or software tools. It's easy to track device inventory, monitor battery levels, and install or remove apps. You can even lock devices, set restrictions, and erase content, right from MediaFast.

* Coming soon.

Available in specific models or with purchase of optional license keys.

Cache. Download x1. Playback x∞.

Cache iTunes/iTunes U and other content automatically by domain and file type. With MediaFast, you can download once and play back over and over again, cutting loading time, bandwidth usage and cost. Keep content as long as you like or purge it automatically by file type and age.

SpeedFusion. Bonded Bandwidth. 24/7 Connectivity.#

Take advantage of all available connections with SpeedFusion bandwidth bonding and load balancing. Automatic failover keeps your learners learning and teachers teaching, even when a link fails.

InControl 2 and AP Controller. Your Network. At Your Fingertips.

Monitor and manage routers, access points, and other connected devices with InControl 2 and AP Controller. Wi-Fi networks are easy to set up, and you get complete control over your entire wireless and wired network from any compatible web browser.

Features

WAN
Support for PPPoE, Static IP, DHCP
WAN Link Health Check
Bandwidth Allowance Monitor
USB 4G LTE/3G Modem Support
Support for Dynamic DNS Services
IPv6 Support

LAN
DHCP Server for LAN Clients
Extended DHCP Options
DHCP Reservation
DNS Proxy for LAN Clients

DNS*
Built-in Authoritative DNS
Support for A, CNAME, NS, MX, PTR, SOA, SRV, TXT Records

Advanced QoS
User Groups
Bandwidth Reservation*
Individual Bandwidth Limit
Application Prioritization
By User Groups
SIP, HTTPS, VPN QoS
Custom Application QoS

Caching
Video Caching
iTunes
iTunes U
TED.com

Content Caching
HTML
JavaScript
Image
Flash Application

Networking
NAT and IP Forwarding
Static Routes
Port Forwarding
Many to One, One to One NAT
NAT Pool
SIP ALG, H.323 ALG
UPnP, NAT-PMP
WINS Server
OSPF and RIPv2 support*

AP Controller
Support for Pepwave AP Series
Auto AP Discovery
Auto AP Firmware Management
AP Profile Configuration
Wi-Fi usage statistics

Load Balancing*
Intelligent Failover
Session Persistence
Per-Service Load Distribution
Multiple Algorithms

Complete VPN Solution*
PepVPN/SpeedFusion
Site-to-Site VPN
Bandwidth Aggregation
Intelligent Failover
256-bit AES Encryption
Pre-shared Key Authentication
Dynamic Routing
PPTP VPN Server
RADIUS, LDAP Authentication
IPsec VPN (Network-to-Network)

Device Management
Web Administrative Interface
Command Line Interface
InControl Cloud Management
Router Utility Mobile App
Email Notification
Active Client & Session Lists
Bandwidth Usage Statistics
Syslog Service
SNMP v1, v2c and v3

Security
Stateful Firewall
DoS Prevention

Applications

Deliver Uninterrupted, On-Demand Learning with Content Caching

- 3 Deliver cached content to students with the Pepwave AP One, and manage your content delivery network with our InControl 2 and built-in AP Controller. The MediaFast can also work with your existing WLAN network

iTunes U

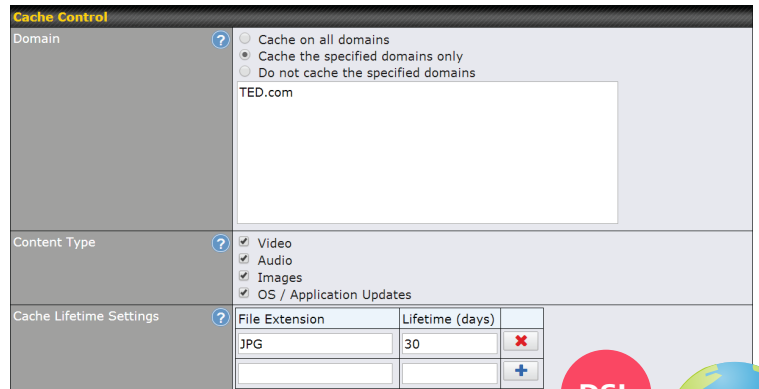

iTunes

IDEAS WORTH SPREADING

TED.com

- 2 Cache content from iTunes/iTunes U, TED, and other providers

MediaFast 500

- 1 Set MediaFast to cache video, audio, HTML, and other content. You can also cache textbooks, apps, and iOS updates for use with unlimited devices

Centrally Manage and Provision iOS Devices with MDM

- 1 Log into MediaFast's management console to get iOS device details, including OS version, battery level, and available storage
- 2 Install and remove apps right from MediaFast
- 3 Set usage restrictions using MediaFast. You can also lock down or erase lost or stolen iOS devices

MediaFast 500

- 4 Enable AirPlay, AirPrint, and other Bonjour services, and then make them available to students on your local and extended network

AirPrint

Accelerate Branch/Offsite Networking with Content Prefetching

Retail

Roadshow

First Responders

Operation
Manual

Make downloaded content available to branch offices without stressing your WAN and racking up huge peak usage bills

Take your show on the road with preloaded ads, demos, websites, and more

Provide quick, uninterrupted access to crucial intelligence in emergency and other mission-critical applications

- 1 Transfer large spreadsheets, documents, presentations, and other business assets overnight or whenever network usage is light

Turbocharge Existing Wi-Fi Hotspots with Cached Content

- 2 Cache content from iTunes/iTunes U, TED, and other providers

- 1 Download and store video, audio, HTML, and other content on MediaFast. You can also store textbooks and apps
